10✂ To the north of Agaete, in the Barranco de Guayedra, there is a very beautiful farm with public access in a natural environment. Inside it is [Los Almacigos Restaurant](#), a place with a lot of magic. Next to the farm you can visit and take a swim in the virgin beach of Callaos and crystal clear waters of Guayedra.

11✂ A must-see is the wonderful town of Agaete, its pier is beautiful, and it is said that its waters have healing powers, so if it suits you, take a good bath. The town of Agaete is also very picturesque. An obligatory visit among the Canaries who visit Agaete is to go to [Bar Perola](#), a traditional Canarian food bar. The food is very simple, but the place is very authentic. I recommend the seasoned tomatoes and the beer cane.

5✂ Tejeda, named one of the most beautiful cities in Spain, you will find an [ice cream shop called Lalexé](#). Take a walk through its streets and try its famous seasonal fruit ice creams.

9✂ You cannot miss the Muelle de Mogán, and stroll through its romantic pedestrian streets and bathing in the Old Pier, to the left of its small beach, just behind, with a stairway enabled for bathers looking for crystal clear water. If you want to see another special sunset, this is the perfect plan. Go to the end of the Muelle de Mogán, turn right and skirt the cliffs ... you will be surprised by the atmosphere that you are going to find! Ask for something delicious to take away in the [Restaurant My life](#), a place with a lot of charm, and accompany it with a few beers or a good wine, you will see...
